SunRail Inspiring Riders

Meet Darin Wilson, one of SunRail's loyal riders, who commutes to his job at Orlando International Airport. Darin, who has been riding SunRail since the very beginning of service, is an advocate of public transportation and has started creating a life-size sculpture of a SunRail conductor.

We asked Darin what prompted him to make such an awesome sculpture, and his response was noteworthy. "What can I do to give back to SunRail? I figured a sculpture; I covered it with SunRail cards...what best to put on it than SunRail cards?"

Darin called on the community of riders and SunRail staff he has gotten to know over the years for help collecting enough SunRail cards to cover the sculpture head to toe. We thank you Darin for your inspiring artwork and the support you and the community continue to show!
