SunRail To Resume Regular Service

Sanford, Fla. – In conjunction with the Governor’s Safe. Smart. Step by Step plan to reopen Florida, and LYNX resuming a normal schedule, SunRail will also resume regular service on Monday, May 11, 2020 while still implementing measures to keep riders and workers safe.

SunRail has taken extra precautions to reduce the potential spread of COVID-19, including increasing frequency of cleaning onboard and at station platforms. Train interiors are being disinfected nightly, hand sanitizer dispensers have been installed onboard and when possible, an extra passenger vehicle will be added to allow for increased social distancing. Station ambassadors are provided with sanitizing supplies to disinfect all station equipment and frequently touched surfaces throughout the day. In addition, materials from the Florida Department of Health educating on the prevention of spreading germs have been installed along the corridor.

The Florida Department of Transportation reminds all riders to adhere to social distancing as much as possible, while onboard and on-platform, to respect others’ personal space, and encourages wearing masks while traveling on SunRail. For further information on how to prevent the spread of germs, please [click here](#) to visit the Florida Department of Health website.

All regular SunRail Connection service on LYNX will resume on May 11 as well. SunRail operates Monday – Friday between DeBary in Volusia County and Poinciana in Osceola County. To view SunRail’s service map and full schedule, please visit SunRail.com.

For questions, please contact Communications Specialist Jessica Ottaviano at 386-943-5473 or Jessica.Ottaviano@dot.state.fl.us.

SunRail and the Florida Department of Transportation urge motorists to use caution near all railroad crossings and when driving in areas with road construction. Please slow down and stay alert. Be smart. Be safe. For more information about SunRail, including fares, schedule and station locations, please visit www.sunrail.com.
